2 · THE WELCOME EMAIL (AUTOMATION TRIGGER: ON SIGNUP)

Subject: You're in — welcome to the Scout

You're in — and you're entered in this month's giveaway. More important: you just helped shape what lands in your inbox.

Here's the deal with the Scout: **one issue every Wednesday, no ads, ever.** I work for you, not advertisers — so when I tell you a place is worth your Saturday, it's because I believe it.

One favor: **reply and tell me a person or place I should meet.** A maker, a hole-in-the-wall, the spot you'd hate to see close. I read every email — the best of this newsletter comes from you.

See you Wednesday,

[Your Name]

Founder & Scout-in-Chief

3 · THE CONTEST MECHANIC & BUILD NOTES

- **Prize:** each month, every completed entry is in a draw for a **\$50 gift card to a business we've featured** — the prize itself promotes a local maker. One winner, announced in-issue (good content + goodwill).
- **Bonus entries:** refer a friend (beehiiv referral link) = +1 entry. Stacks growth onto the data capture.
- **beehiiv setup:** add Q1–Q5 as *custom signup fields* (single/multi-select). Keep it to 5 to protect completion. If a field type is limited, ask one question at a time via the welcome automation (progressive profiling).
- **Automation:** trigger the welcome email on signup; tag completers as **scout-insider** for the monthly draw and for segmenting sends.
- **Don't re-ask.** Later, add *one* new profiling question per issue (progressive profiling) — never a wall of forms. Frequency cap protects the list.
- **Privacy:** link a real privacy policy; honor “data” / unsubscribe immediately; first-party only — do **not** buy third-party appends. Aggregate-only, no PII to anyone.
