

The Chattanooga Deal

Real estate & development intelligence for the Scenic City's pros

ISSUE 002 · JUNE 2026

A Brief Scout Media B2B brief

PRESENTED BY CUMBERLAND TITLE & CLOSING · SAMPLE SPONSOR

Good morning, pros. Today: a zoning vote that could reshape the Southside pipeline, the week's deals and new permits, who's coming to town (retail & restaurants worth knowing about for your commercial clients), and a numbers box built for listing and underwriting decisions.

THE LEAD · POLICY

The rezoning vote every developer should be watching

[Analysis of a specific, real city-council / planning-commission item — what's proposed, who's for/against, the timeline, and the concrete effect on entitlements, density, or parking minimums for projects in the corridor. The kind of regulatory read agents and developers can't get from the daily paper. Verified against the published agenda + named sources.]

Tie every policy claim to the official agenda/minutes before publishing.
